# Pre-K 4 Awesome News!

June 2nd-6th

This Week

We had a great week learning about the letters "Q", "R", "S", "T" and "U". During circle time we read The Quiet Quail, Rosie Rabbit's Radish, Seal's Silly Sandwich, When Tilly Turtle Came to Tea, and Umbrellabird's Umbrella. After we read each story, we sang our letter sound songs and sorted pictures that began with each letter. The kiddos love reading their alphabet cheers and are doing great following along as we read them together.

This week we blasted off into space. During circle time, we learned about our galaxy and everything that it holds. First, we learned that the Sun, a giant star, is a ball of gas in the center of our universe. Then, we learned about our home planet, Earth. We learned that the Earth is the perfect place for life to live and it circles around the sun. We also learned about the Moon. We learned that the Moon is Earth's best friend and circles the Earth as the Earth circles the Sun. The kiddos also learned that there are many other stars in our galaxy that can create pictures, or constellations in the sky. Throughout our craft time we made our own galaxy complete with the Sun, Earth, Moon and constellations.

Throughout the week, the kiddos enjoyed exploring in all our new space centers. We have a brand-new space station complete with computers, phones, electronics and a robotic space dog. The kiddos loved getting into the space station and pretending to blast off into space to find aliens! Our sensory table even transformed into an alien world filled with asteroids, aliens, space rocks and many other strange space objects.

Looking Ahead

We will be learning about astronauts and aliens.

Looking Ahead

June 13th
Dads & Donuts
2pm-2:45pm
