

Circle Time

During circle time this week, we read, How the Crayons Saved the Rainbow, Brown Bear, Brown Bear, What Do You See?, and Colors. This month we are working on the oval shape and the color green.

Centers

We had an awesome time this week playing in all our centers. We played in our animal center pretending to be bears and lions jumping over big mountains that we made with our blocks. We also played in our dramatic play center and in our ball center. In the ball center we made an obstacle course and had to throw different colored balls into the basket that matched the color of the ball. The kiddos had a blast and did a great job!!

Specials

In music with Miss Katie this week, we had fun listening to her pop-up book, The Wide Mouth Frog. In acro with Miss Kayla we an awesome time dancing to our bunny song and our new Elmo song.

Crafts

During craft time we made handprint rainbows. First, we painted our little hands all the different colors of the rainbow, then we glued them all together to make the rainbow. We also made colorful sailboats by gluing the bottom of our boat and the sail onto a popsicle sticks then we used bingo dabbers to decorate them.
