## What We're Learning

## News From the Nest

This week at school we practiced using some of the supplies in our classroom. We had so much fun during our fine motor centers using glue sticks, glue bottles, paints, and scissors!

On Monday, we learned the phrase, "dot dot not a lot" to help us to remember when using liquid glue, we should not put too much on the paper. We glued pom poms to our papers inside of little dots. Miss Katie came in for music class. The kiddos loved singing and dancing with her! We also got to meet her very special friends, Rocky and Jazz.

During craft time on Tuesday, we used our glue sticks to glue circles to our papers. We also learned that when starting out, we have to "wake up Mr. Glue (by turning up the glue stick just a little bit) and when we are finished, we have to say "goodnight Mr. Glue (twist him back down and put the cap back on). Miss Renee began social skills with our class this week. During social skills we talked about all of the different feelings we can have. We read a story about our feelings as well as looked at and acted out each feeling that we saw.

One of our favorite activities this week was when we got to paint with watercolors. The students did such a great job being careful with their water and paints. All of the pictures came out so beautiful!

This week at school we began implementing children's cosmic yoga every day after lunch. Doing this is helping all of the kiddos to calm and relax our bodies before it is time to lay down for rest. Everyone is doing a great job with yoga!

Next week we will be talking about how special and unique we are as individuals! We will begin sending home library books next week as well.
