

Circle Time

This week during circle time we read Happy Valentine's Day, Little Critter. The story was all about celebrating Valentine's Day at school and giving out special valentines to our friends. We also read Valentine Mice and Just A Mess. This month we are working on the heart shape and the color purple.

Centers

In centers this week we had an awesome time pretending to be chefs and preparing food for each other. We also had a blast building tall towers with our big blocks. In our duck center we had fun connecting all the same color ducks together and pretending they were waddling across the floor.

Specials

In Music with Miss Katie, the kiddos had an awesome time learning a new Valentine's Day song. Miss Ilia and Charlotte came to visit and played in our "Pop-It" center with us. The kiddos loved watching Charlotte try to pop all the "Pop-Its" with her paws. The kiddos were excited when Miss Kayla came in this week and taught us a new dance for Valentine's Day.

Crafts

During craft time this week we made love bugs. First, we glued a red and black heart together, we added little mini black hearts to the back, then glued on eyes and antennas. The kiddos did a great job! We also made heart inch worms by stamping pink and purple hearts with paint onto our art paper.
