January 23rd – January 27th

We had an awesome week!

This week during circle time we talked about all the different things an oval shape can make. Everyone had a turn to go exploring around the classroom trying to find something that was shaped like an oval. The kiddos did a great job!

On Monday, Miss Katie stopped by to sing and dance with us. She taught us a new dance called "Slide Like a Penguin." The kiddos had fun using paper plates to slide around the floor pretending to be penguins.

For our craft this week, we continued learning about the oval shape by making oval shaped monsters and pineapples.

For Hawaiian Day on Friday, we were invited over to the 4-year-old classroom to watch Mr. Ed's homemade volcano erupt. Then for a special Hawaiian snack, we cut up a pineapple. The kiddos loved it!

Some of the stories we read this week were Shapes, Now It Is Winter, Little Critter Shapes, Penguin Says Please, and The Winter Wish.

This month we are working on learning the oval shape and the color blue.
