

### Circle Time

During circle time this week, we read, That's Not My Dinosaur, Never Touch A Dinosaur, and Dinosaurs. This month we are working on the diamond shape and the color yellow.

### Centers

We had an awesome time roaring while pretending to be dinosaurs in our matching dinosaur center this week. In our kitchen center, the kiddos made Miss Jennie and myself breakfast and it was delicious. We also played in our train center, where the kiddos built a very long train track that went around our whole rug. They were so excited!!

### Specials

We had a great time in music with Miss Katie, marching around singing, and using all different instruments. Miss Ilia and Charlotte came by this week to play with us. The kiddos thought Charlotte was so silly when she tried to make her paw prints in our play doh. Miss Carly came in for a visit from the Grand Island Library to read to us. She also brought in some dinosaur coloring sheets for us to color. The kiddos did a great job!!

### Crafts

During craft time we made dinosaurs. First, we painted dots all over a cut-out letter "D" using Q-tips. Then we added a face and triangles on the back for the dinosaurs spines. We also ripped up different colored tissue paper and glued them onto a cut-out picture of a dinosaur.
